EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lisa A. Haile on May 20, 2005.

2. The application has been amended as follows:

In the Claims:

46. (Currently Amended) A method for promoting neuron repair or regeneration in a human subject suffering from spinal cord disruption by intrathecal administration of a therapeutically effective amount of a composition comprising:

(a) one or more complement-fixing antibodies or complement-fixing fragments thereof, which specifically bind to galactocerebroside (GalC); and

(b) one or more complement proteins or fragments thereof, wherein at least one of the complement proteins is a C3 protein;

wherein the combination of said antibodies and complement proteins or fragments thereof causes activation of the complement system resulting in disruption of myelin or demyelination, thereby promoting neuron repair or regeneration.

Art Unit: 1646

58. (Currently Amended) The method according to claim 46, wherein the complement-fixing antibodies fragments are ~~an immunoreactive fragment~~ selected from the group consisting of Fv, Fab, Fab', and F(ab')₂ fragments.

3. Figure 1 of the instant application is presented in separate panels. 37 C.F.R. § 1.84(u) (1) states that in cases when figures present partial views of a drawing, which are intended to form one complete view, whether contained on one or several sheets, the figures must be identified by the same number followed by a capital letter. For example, the two panels of Figure 1 in the instant specification should be renumbered "Figure 1A" and "Figure 1B" rather than "Figure 1". Applicant is reminded that once the drawings are changed to meet the separate numbering requirement of 37 C.F.R. § 1.84(u) (1), the specification should be amended to change the Brief Description of the Drawings and the rest of the specification to refer to each Figure accordingly. If, for example, Figure 1 is divided into Figures 1A-1B, then the Brief Description and all the references to this figure in the specification must refer to this Figure in the same manner.
4. Claims 46 and 58-61 are allowed. Claims 46 and 58-61 are renumbered as 1-5, respectively.
